

A mobilization initiative on gender equity in health research

TDR Global is launching a 3-month mobilization initiative on gender equity in health research! The aim is to enhance women's position in health research and to address the impact of gender on infectious diseases of poverty through research.

GREAT OPPORTUNITIES TO MAKE A DIFFERENCE, COLLABORATE, GROW YOUR NETWORK

You will be encouraged to engage in various types of activities.

Joining the online launch event on 15 February 2018 : [Prof. Pascale Allotey](#), Director of the United Nations University International Institute for Global Health will share her experience and thoughts on gender equity in health research. More information will be sent to registered participants. See below to know more and register.

Organizing challenge-solving workshops: Together we will identify local challenges, create local teams and offer training in an effort to solve these challenges with the help of design thinking methodologies.

Inspiring others through TDR Global talks: You will be invited to share best practices and experiences on enhancing gender equity in health research.

Setting up working groups to work on specific issues: You will be encouraged to set up a working group, organize webinars to stimulate discussions, share short videos. Training on workshop facilitation will be available.

WHAT CAN YOU DO NOW?

- Join the [TDR Global LinkedIn group](#) to get information and answers to you questions

- Invite your colleagues to be part of this LinkedIn group.

- [Register](#) now for the online launch on 15 February 2018

- **Share articles or a short (2-minute) video testimony** about what you have done for gender equity in health research to inspire others within the LinkedIn group
- **Register and take part in a 1.5-hour session to learn how to organize challenge-solving workshops**
Think of a challenge you or your colleagues are facing regarding gender equity. This could be related to the position of women in research or to the impact of different gender dimensions on infectious diseases.
 - register for the session on [27 February 2018, 4:00 PM – 5:30 PM CET](#)
 - register for the session on [28 February 2018, 10:00 AM – 11:30 AM CET](#)

Don't miss this opportunity!
